Keywords

windows 11, compatibility, upgrade, windows 10, operating system, support, desktop application

Symptom (public)

Customer wants to confirm if PowerSoft desktop applications are compatible with Windows 11 before performing an upgrade.

Problem (public)

Microsoft is ending support for Windows 10, and customers need to verify whether PowerSoft software will continue to work on Windows 11 without requiring changes.

Solution (public)

Yes, our desktop applications are fully compatible with Windows 11.

-

Extensive compatibility testing has been completed

-

Windows 11 is used in our internal development and testing environments

-

No changes or updates are required to run our applications on Windows 11

Customers may proceed with upgrading their systems at their discretion.
